INDEPENDENT AUDITOR'S REPORT

To the Board of Managers
Middle St. Croix Watershed Management Organization
Oakdale, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the general fund of Middle St. Croix Watershed Management Organization, Oakdale, Minnesota, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Middle St. Croix Watershed Management Organization's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of Middle St. Croix Watershed Management Organization, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule on page 15, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Middle St. Croix Watershed Management Organization's basic financial statements. The introductory section is presented for purposes of additional analysis and is not a required part of the financial statements.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 10, 2020, on our consideration of the Middle St. Croix Watershed Management Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Middle St. Croix Watershed Management Organization's internal control over financial reporting and compliance.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

Note 1 - Summary of Significant Accounting Policies

The Middle St. Croix Watershed Management Organization (the WMO) was established by a Joint Powers Agreement in 1984, between the cities and townships of Afton, St. Mary's Point, Lake St. Croix Beach, Lakeland Shores, Lakeland, Bayport, Oak Park Heights, Stillwater, West Lakeland Township, and Baytown Township, Minnesota. The WMO was formed to meet the requirements of the Metropolitan Surface Water Management Act under the provisions of Minnesota Statutes 103B.211 and 471-59.

The purpose of the Watershed Management Plan is to:

- Protect, preserve, and use natural surface and groundwater storage and retention systems.
- Minimize public capital expenditures needed to correct flooding and water quality problems.
- Identify and plan for the means to effectively protect and improve surface and groundwater quality.
- Establish more uniform local policies and official controls for surface and groundwater management.
- Prevent erosion of soil into surface water systems.
- Promote groundwater recharge.
- Protect and enhance fish and wildlife habitats and water recreational facilities.
- Secure the other benefits associated with the proper management of surface and groundwater.

The WMO submitted its Watershed Management Plan to the Minnesota Board of Water and Soil Resources in 1984. Each municipality within the WMO has developed, or is in the process of developing, a specific local water management plan to accomplish the various watershed management objectives of the WMO. The work plan includes guidelines for employees and technicians to follow in order to achieve the Organization's objections.

The WMO is governed by a ten-member Board of Managers. The Board consists of ten representatives appointed by each of the member municipalities.

The financial statements of the WMO have been prepared in conformity with generally accepted accounting principles as applied to government units by the Governmental Accounting Standards Board (GASB). The WMO's accounting policies are described below:

Financial Reporting Entity

Generally accepted accounting principles require that the financial reporting entity include the primary government and component units for which the primary government is financially accountable. Under these principles the WMO does not have any component units.

Government-Wide Fund Financial Statements

The government-wide fund financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the WMO. The governmental activities are supported by member contributions and intergovernmental revenues.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported instead as general government revenues.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the WMO considers all revenues, except reimbursement grants, to be available if they are collected within 60 days of the end of the current fiscal period. Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Intergovernmental revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the WMO.

The WMO reports one major governmental fund. The General Fund (Administrative Fund) is the general operating fund of the WMO. It is used to account for financial resources to be used for general administrative expenditures and programs of the WMO.

Budgets

Budgets are adopted annually by the Board of Managers. During the budget year, supplemental appropriations and deletions are, or may be, authorized by the Board. The amounts shown in the financial statements as "Budget" represent the original budgeted amounts plus all revisions made during the year and/or for the year. Encumbrance accounting, under which purchase orders, contracts and other commitments of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the WMO.

The WMO monitors budget performance on the fund basis. All amounts over budget have been approved by the Board through the disbursement approval procedures.

At December 31, 2019, the WMO's actual expenditures exceeded final budget by \$312,291.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

Cash and Investments

Cash and investment balances are invested, to the extent available, in authorized investments.

In accordance with the provisions of GASB Statement No. 31, the WMO reports investments at fair value in the financial statements. In accordance with the provisions of GASB No. 31, the WMO has reported all investment income, including changes in fair value of investments, as revenue in the operating statements.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles (GAAP) requires management to make estimates that affect amounts reported in the financial statements during the reporting period. Actual results could differ from such estimates.

Unearned Revenue

Governmental funds and government-wide financial statements report unearned revenue in connection with resources that have been received, but not yet earned.

Classification of Net Position

Net position in the government-wide financial statements is classified in the following categories:

Unrestricted net position – the amount of net position that does not meet the definition of restricted or investment in capital assets.

Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable – consists of amounts that are not in spendable form, such as prepaid items.

Restricted – consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed – consists of internally imposed constraints. These constraints are established by resolution of the WMO Board.

Assigned – consists of internally imposed constraints. These constraints reflect the specific purpose for which it is the WMO's intended use. These constraints are established by the WMO Board and/or management.

Unassigned – is the residual classification for the general fund.

When both restricted and unrestricted resources are available for use, it is the Board's policy to first use restricted resources, and then use unrestricted resources as they are needed.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

When committed, assigned or unassigned resources are available for use, it is the Board's policy to use resources in the following order: 1) committed 2) assigned and 3) unassigned.

Subsequent Events

In December 2019, a novel strain of coronavirus was reported in Wuhan, China. The World Health Organization has declared the outbreak to constitute a "Public Health Emergency of International Concern." The extent of the impact of COVID-19 on the WMO's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on the WMO's customers, employees and vendors all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the WMO's financial condition or results of operations is uncertain.

In preparing these financial statements, the WMO has evaluated events and transactions for potential recognition or disclosure through June 10, 2020, the date the financial statements were available to be issued.

Recently Issued Accounting Standards

In February 2016, the FASB issued Accounting Standards Update, Leases (Topic 842), intended to improve financial reporting about leasing transactions. The ASU affects all companies and other organizations that lease assets such as real estate, airplanes, and manufacturing equipment. Under the new guidance, a lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months. Consistent with current Generally Accepted Accounting Principles (GAAP), the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee primarily will depend on its classification as a finance or operating lease. However, unlike current GAAP, which requires only capital leases to be recognized on the statement of net position and statement of activities, the new ASU will require both types of leases to be recognized on the statement of net position and the statement of activities. The ASU leases will take effect for all non-public companies for fiscal years beginning after June 15, 2021.

Note 2 - Deposits and Investments

Deposits

In accordance with Minnesota Statutes, the WMO maintains deposits at those depository banks authorized by the WMO Board, all of which are members of the Federal Reserve System.

Minnesota Statutes require that all WMO deposits be protected by insurance, surety bond or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by insurance or bonds.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

Minnesota Statutes require that securities pledged as collateral be held in safekeeping by the WMO Treasurer or in a financial institution other than that furnishing the collateral. Authorized collateral includes the following:

- a) United States government treasury bills, treasury notes and treasury bonds;
- b) Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- c) General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- d) General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- e) Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc. or Standard & Poor's Corporation; and
- f) Time deposits that are fully insured by any federal agency.

At December 31, 2019, the carrying amount of the WMO's deposits were \$123,715 and the bank balance was \$122,897.

Custodial Credit Risk Deposits

Custodial credit risk is the risk that in the event of a bank failure, the WMO's deposits may not be returned to it. State statutes require that insurance, surety bonds or collateral protect all WMO deposits. The market value of collateral pledged must equal 110% of deposits not covered by insurance or bonds. The WMO has no additional deposit policies addressing custodial credit risk. As of December 31, 2019, the WMO's deposits were not exposed to custodial credit risk.

Note 3 - Unearned Revenue

Unearned revenue represents unearned advances from the Minnesota Board of Water and Soil Resources (BWSR) for clean water funds. Revenues will be recognized when the related program expenditures are recorded. Unearned revenue for the year ending December 31, 2019 consisted of a Clean Water Fund Lake St. Croix South Phase I for \$100,000.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

Note 4 - Grants

The WMO receives financial assistance from governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the applicable fund. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the WMO at December 31, 2019.

Note 5 - Risk Management

The WMO is exposed to various risks of loss for which the WMO carries commercial insurance policies.

There were no reductions in insurance coverage from the previous year or settlements in excess of insurance coverage for any of the past three fiscal years.

Note 6 - Stewardship, Compliance and Accountability

Excess of expenditures over budget – The General Fund had expenditures in excess of budget for the year as follows: Expenditures \$445,361; Budget \$133,070; Excess \$312,291.

Note 7 - Commitments and Contingencies

The WMO is not aware of any existing or pending lawsuits, claims or other actions in which the WMO is a defendant.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Managers
Middle St. Croix Watershed Management Organization
Oakdale, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of Middle St. Croix Watershed Management Organization, Oakdale, Minnesota, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Middle St. Croix Watershed Management Organization's basic financial statements, and have issued our report thereon dated June 10, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Middle St. Croix Watershed Management Organization's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Middle St. Croix Watershed Management Organization's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Middle St. Croix Watershed Management Organization's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over financial reporting as described in the accompanying Schedule of Findings and Responses as item 2019-001 to be a significant deficiency.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Middle St. Croix Watershed Management Organization financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Middle St. Croix Watershed Management Organization's Response to Findings

Middle St. Croix Watershed Management Organization's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Responses. Middle St. Croix Watershed Management Organization's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

To the Board of Managers
Middle St. Croix Watershed Management Organization
Oakdale, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States the financial statements of the governmental activities and the general fund of Middle St. Croix Watershed Management Organization, as of and for the year ended December 31, 2019, and the related notes to the financial statements which collectively comprise the Middle St. Croix Watershed Management Organization's basic financial statements, and have issued our report thereon dated June 10, 2020.

In connection with our audit, nothing came to our attention that caused us to believe that Middle St. Croix Watershed Management Organization failed to comply with the provisions of the contracting and bidding, deposits and investments, conflicts of interest, claims and disbursements, miscellaneous provisions, and tax increment financing sections of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions*, promulgated by the State Auditor pursuant to Minnesota Statutes 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Middle St. Croix Watershed Management Organization's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

**MIDDLE ST. CROIX WATERSHED MANAGEMENT ORGANIZATION
SCHEDULE OF FINDINGS AND RESPONSES
DECEMBER 31, 2019**

2019-001 Segregation of Duties

Criteria: Generally, a system of internal control contemplates separation of duties such that no individual has responsibility to execute a transaction, have physical access to the related assets, and have responsibility or authority to record the transaction.

Condition: Substantially all accounting procedures are performed by one person.

Cause: This condition is common to organizations of this size due to the limited number of staff.

Effect: The lack of an ideal segregation of duties subjects the WMO to a higher risk that errors or fraud could occur and not be detected in a timely manner.

Recommendation: Any modification of internal controls in this area must be viewed from a cost/benefit perspective.

Management Response: The WMO has adequate policies and procedures in place to compensate for the lack of segregation of duties, including having all disbursements approved by the Board of Managers.
